STATUS OF ROUNDABOUTS IN NORTH AMERICA:
A Snapshot of the Inventory Database at roundabouts.kittelson.com

KEY HIGHLIGHTS:
- Estimated total of approximately 3,200 roundabouts in the U.S. through 2013, with 2,300 confirmed.
- Roundabouts are now found in all 50 states.
- 250 to 300 roundabouts (source: Report by Keith Boddy to the TRB Roundabout Committee at the 2014 TRB Annual Meeting).
- Approximately half of these are in the database (126).

METHODS AND ASSUMPTIONS:
- Database pulled from roundabouts.kittelson.com for analysis on April 2, 2014.
- Known locations are confirmed manually through Google Maps and Google Earth aerial photos.
- Dates of construction are confirmed or estimated through Google Earth's historical photos and by external sources such as agency-maintained databases, newspaper articles, etc.
- Known sites with unknown dates are included only on the 2013 map.
- Unknown sites (not shown on the maps) are estimated at 40% based on historical underestimation.
- Database continues to be a voluntary work in progress – please help contribute information!

CANADA
- 250 to 300 roundabouts (source: Report by Keith Boddy to the TRB Roundabout Committee at the 2014 TRB Annual Meeting).
- Approximately half of these are in the database (126).
