Keep This Database Current!

roundabouts.kittelson.com

Known Roundabouts in the U.S.

By State

By County

Analysis and Methodology

Methods and Assumptions

• Data pulled April 15, 2017
• Other circular intersections excluded
• Current database compared to what was known in 2014, 2011, 2008, and 2003 to estimate undercounting
• Total estimated unknown sites in 2016: 29% (40% in 2013)
• Unknown sites are distributed over multiple years, biased towards most recent years

Why No Maps of Canada This Time?

• Database is known to be very incomplete (158 sites)
• At least 400 roundabouts believed to exist, but few additions to database since 2014 – your help is needed!
